Jakow Smirin

Idea Machine & Problem Solver from the Future. AIOps | AI Consultant

Düsseldorf, Nordrhein-Westfalen, Deutschland

Zusammenfassung

An almost infinite curiosity drives me to get excited about a wide range of topics - from gaming & technology to Japanese culture & astronomy.

I love to question the status quo and to master all kinds of challenges creatively

- no matter how unsolvable they initially seem.

I'm an open-hearted, open-minded, and empathetic person.

It gives me great pleasure to work with different personalities and to infect others with my enthusiasm.
